The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. Description of the business

Eguana Technologies Inc. ("Eguana", or the "Company"), incorporated under the Business Corporations Act of Alberta, develops and manufactures advanced power inverters for the emerging alternative and renewable energy industry - solar photovoltaic ("PV") systems, small wind turbines, fuel cells and all forms of energy storage. The Company is a publicly traded company headquartered at Unit 3, 6143 – 4th Street SE, Calgary, Alberta, Canada and its shares trade on the Toronto Stock Exchange Venture Exchange "TSX-V" under the symbol "EGT".

On October 29, 2013, the shareholders of the Company approved a change of name of the Company to Eguana Technologies Inc. from Sustainable Energy Technologies Ltd.

2. Basis of preparation

(a) Statement of compliance

These unaudited condensed interim consolidated financial statements ("the financial statements") were prepared by management in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting" using accounting policies consistent with International Financial Reporting Standards (" IFRS"), as issued by the International Accounting Standards Board (" IASB").

The financial statements do not comprise all the information required for annual audited consolidated financial statements and therefore should be read in conjunction with the annual audited consolidated financial statements for the year ended September 30, 2014, which were prepared in accordance with IFRS. These unaudited condensed interim financial statements follow the same accounting policies as outlined in Notes 2 and 4 of the audited consolidated financial statements for the year ended September 30, 2014.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are consistent with those disclosed in Note 3 of the September 30, 2014 audit consolidated financial statements.

These financial statements were approved and authorized for issuance by the Board of Directors of Company on March 1, 2015.

(b) Going concern

The condensed interim consolidated financial statements were prepared on a going concern basis. The going concern basis assumes that the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

At December 31, 2014, the Company had not yet achieved profitable operations since its inception and accumulated a deficit of $38,111,127 (2013 - $33,645,728) and recognized a cash flow deficiency from operations in 2014 of $842,357 (2013 - $1,107,579). Whether and when the Company can attain profitability and positive cash flows from operations is uncertain. The lack of profitable operations and cash flow deficiency may cast significant doubt on the Company's ability to continue as a going concern.

Stated in Canadian dollars

2. Basis of preparation (continued)

(b) Going concern (continued)

The Company currently has significant working capital due to the elimination of the liability for the fair value of common shares to be issued upon conversion in respect of accreted dividends on the conversion of preferred shares to common shares and the issue of significant equity during the period.

The ability to continue as a going concern is dependent on completing equity or debt financings or generating profitable operations in the future in order to meet liabilities as they come due and enable the Company to continue operations. The ability to continue as a going concern may be adversely impacted by the loss of customers and falling sales per customer. To address its financing requirements, the Company will seek financing through the issuance of common shares, first preferred shares, units of STG Limited Partnership and debentures. The outcome of these matters cannot be predicted at this time.

These condensed interim consolidated financial statements do not include any adjustments which could be significant to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to obtain equity or debt financings or generate profitable operations in the future. Failure to continue as a going concern would require the restatement of assets, liabilities and shareholders' deficiency on a liquidation basis, which could differ materially from the going concern basis.

(c) Recently adopted accounting standards

Recent accounting pronouncement that have been issued but are not yet effective are consistent with those disclosed in the Company's audited consolidated financial statements for the year ended September 30, 2014

In addition accounting standard changes that the Company will be required to adopt in future years include IFRS 15 which replaces IAS 18 Revenue and related interpretations. The core principle of the new standard is to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. The new standard is intended to enhance disclosures about revenue, provide more comprehensive guidance for transactions that were not previously addressed and improve guidance for multiple-element arrangements. IFRS 15 is effective for annual periods beginning on January 1, 2017, with early adoption permitted. The Corporation continues to evaluate the impact of these standards on its consolidated financial statements

3. Inventory

Amortization of the capital assets is included in the condensed interim consolidated statement of loss and comprehensive loss under the line item “general and administrative”.

As at December 31, 2014 $nil (September 30, 2014 - $140,394) of lab equipment additions had not been paid for and the amount owing has been included in accounts payable and accrued liabilities.

5. Bank debt

The Company has a $1,500,000 operating line of credit. The operating line is secured by Doughty Hanson through an Equity Commitment Agreement. Interest is payable at the bank’s prime rate plus 3% (2013 – prime rate plus 3%) and amounts outstanding are repayable upon demand.

6. Energy Northwest obligation

	December 31, 2014	September 30, 2014
	$	$
Obligation to Energy Northwest ($118,746 US; September 2014 - $115,229 US)	**142,067**	132,551
Less: current portion of Energy Northwest obligation	**(85,040)**	(73,948)
	57,027	58,603

Stated in Canadian dollars

6. Energy Northwest obligation (continued)

Energy Northwest (formerly "Washington Public Power Supply System") made contributions of services to SEL towards the development of SEL's step wave power conversion technology valued at US$182,178. Under its agreement with SEL, Energy Northwest is entitled to annual compensation for such contribution in an amount equal to 10% of SEL's gross monthly sales in any year; provided, however, that the compensation payable in any year is not to be less than US$7,000 and not more than 20% of Energy Northwest's total contribution plus interest calculated at an annual (APR) rate of 20% of the outstanding balance unpaid at the end of the year. Compensation payments are to be completed by January 1, 2016. The obligation is unsecured.

The compensation payable to Energy Northwest in any year until January 1, 2016, is dependent on product sales using the SWPC technology, subject to the above noted annual minimum and maximum thresholds in the year. As the sole basis for the repayment of the loan was linked to future gross sales in SEL, management has determined that the obligation to Energy Northwest contained an embedded derivative and accordingly accounted for in accordance with IAS 39. This requires the embedded derivative be recognized at fair value with subsequent changes in value being recognized in the unaudited condensed interim unaudited condensed interim consolidated statement of loss and comprehensive loss each period. At December 31, 2014, the Company completed the development of the 3rd generation STX inverter, which does not use the SWPC technology, and the Company has ceased production of inverters based on the SWPC technology resulting in the minimum compensation being payable in subsequent years. The embedded derivative is valued at nil (2013 – nil).

7. Government grant obligation

The Company entered into an agreement with the National Research Council ("NRC") to fund 60% of the salaries it incurs to commercialize the universal electronic platform to a maximum of $245,241. The Company has received the maximum amount. A royalty of 1.9% of gross revenue after October 1, 2008 is payable until the National Research Council has recovered one and a half times the amount advanced to the Company or for a period of eleven years after the beginning of the repayment schedule. The remaining payable or potentially payable under the agreement is $249,940 (September 30, 2014 - $267,440).

The carrying amount of the financial liability related to the government grant obligation is the following:

	December 31, 2014	September 30, 2014
	$	$
Government grant (NRC)	**197,683**	215,827
Less: current portion	**(176,736)**	(158,056)
	20,947	57,771

The repayments are due quarterly and are subject to interest for late payments. The liability is unsecured.

Stated in Canadian dollars

On June 29, 2012, the Company issued $800,000 in 5-year subordinated debentures (“Debentures”), issued at an original issue discount of 12.5% to net the Company $699,875. The debentures bear interest at a rate of 3% per annum, plus an amount equal to 0.8% of the unaudited condensed interim unaudited condensed interim consolidated revenues realized by the Company and are both payable on a quarterly basis during the term of the debenture. The Debenture is callable by the Company at par at any time after the third anniversary of issue. Purchasers of the debentures have also been issued a total of 280,000 restricted common shares of the Company, which will be released on a quarterly basis over the 2 year period following issuance. The restricted common shares were valued at the residual amount of $140,000. The debentures are secured by a general security agreement. The principal amount of $800,000 is repayable in 12 equal quarterly payments commencing December 31, 2014. The Company incurred transaction costs related to the issue of the debentures of $39,902. The effective interest rate on the debentures is estimated to be 25.83%. On December 21, 2014, the Company repaid the remaining amount owing on a $46,000 debenture to a key personnel of the Company.

On August 7, 2013, and September 17, 2013, the Company issued $1,820,000 in 5-year subordinated debentures (“Debentures”), issued at an original issue discount of 12.5% to net the Company $1,592,500. The debentures bear interest at a rate of 3% per annum, plus an amount in total equal to 1.82% of the unaudited condensed interim consolidated quarterly revenues realized by the Company and are both payable on a quarterly basis during the term of the debenture. The Debenture is callable by the Company at par at any time after the second anniversary of issue. Purchasers of the debentures had the option of receiving common shares or warrants. The Company issued 424,000 commons shares valued at $156,880 and 608,000 warrants exercisable at $0.50 for a period of four years from the date of issue valued at $110,330. The debentures are secured by a general security agreement. The principal amount of $1,820,000 is repayable in 12 equal quarterly payments commencing September 30, 2015. The Company incurred transaction costs related to the issue of the debentures of $35,713. The transaction costs included the issue of 8,750 broker warrants exercisable at $0.50 for a period of one year from the date of issue. The effective interest rate on the debentures is estimated to be 24.14%. On December 21, 2014 the Company repaid $240,000 of debentures to directors and key personnel.

Stated in Canadian dollars

8. Debentures and other financial liabilities

On June 30, 2014, the Company issued $360,000 in 5-year subordinated debentures ("Debentures"), issued at an original issue discount of 12.5% to net the Company $315,000. The debentures bear interest at a rate of 3% per annum, plus an amount in total equal to 0.36% of the unaudited condensed interim consolidated quarterly revenues realized by the Company and are both payable on a quarterly basis during the term of the debenture. The Debenture is callable by the Company at par at any time after the second anniversary of issue. The purchaser of the debentures received 144,000 common shares valued at $0.56 per share. The debentures are secured by a general security agreement. The principal amount of $360,000 is repayable in 12 equal quarterly payments commencing September 30, 2016. The Company incurred transaction costs related to the issue of the debentures of $17,749. The effective interest rate on the debentures is estimated to be 33.92%.

On October 8, 2014, the Company issued 777,906 common shares on the conversion of 38,600 Series 7 preferred shares which included accreted dividends of $208,229 that were also converted into common shares at the time the preferred shares were converted.

In December 2014, the Company issued 27,986,575 common shares on the conversion of all remaining outstanding series of preferred shares, except series 8, on the date of conversion. This conversion was the result of the majority holder of the individual series electing to cause the conversion The conversion included accreted dividends of $4,248,047 that were also converted into common shares.

Stated in Canadian dollars

9. Common shares (continued)

In December 2014, the Company issued 16,057,903 million common share units at a price of $0.30 per unit. Each unit consisted of one common share and one half of one common share purchase warrant. Each warrant entitles the holder to purchase one common share for a period of 5 years from the closing date at a price of $0.39 per common share. The commissions paid were $314,116. As partial compensation 775,220 agent warrants were issued at a price of $0.30 for a period of two years with a fair market value of $192,177 and 271,883 agent warrants were issued at a price of $0.39 for a period of five years with a fair market value of $88,634. Other costs of $333,614 related to the issue of the units were also incurred bringing the total costs on issuance to $928,541. 1,100,000 units were issued to key personal and directors of the Company.

Weighted average number of common shares

The weighted average number of shares for December 31, 2014 and 2013 were determined by excluding preferred shares, stock options and warrants because the Company was in a loss position. In calculating diluted common share amounts for December 31, 2014 and 2013, the Company excluded nil (2013 – 1,131,587) preferred shares convertible into nil (2013 – 27,014,154) common shares, 17,570,706 (2013 – 6,424,128) warrants and 3,079,519 (2013 – 2,676,019) options.

10. Preferred shares

Authorized

Unlimited number of voting preferred shares issuable in a series, redeemable at the option of the Company at the then redemption price, if within the 90 day period preceding the date of notice of redemption, the weighted average trading price has exceeded $6.00 per share for at least 30 consecutive trading days and the average trading volume for such 30 consecutive trading days is at least $200,000, subject to the prior right of holders to exercise their right to convert the Preferred Shares into common shares.

Holders of preferred shares are entitled to receive as and when declared by the Board of Directors annual dividends of 8% of the then applicable Series Redemption Price payable semi-annually. In the event the annual 8% dividend is not declared and paid, such dividend shall be accretive to the Redemption Price.

Holders of the preferred shares may convert, at any time, into that number of fully paid and non-assessable common shares equal to the then applicable Series Redemption Price divided by the conversion price. The conversion for the preferred shares includes a fixed conversion price on the initial subscription plus the conversion of accreted dividends to common shares. The accreted dividend conversion price is based on the closing price of the common shares on the day prior to the conversion.

The fixed conversion price for each of the issued series outstanding as at December 31, 2014 is as follows:

Series 7	$1.50	Series 8	$1.00	Series 9	$1.55	Series 10	$1.40	Series 11	$1.15
Series 12	$0.80	Series 13	$0.40	Series 14	$0.105	Series 15	$0.12

11. EGT Markets Limited Partnership

EGT Markets Limited Partnership ("EGTLP") is an Alberta Limited Partnership which carries on the business of commercializing manufacturing and marketing inverters under license from Eguana and certain of Eguana's subsidiaries. The General Partner of EGTLP is SES which exercises control over EGTLP's operations. The Limited Partners of STGLP are Eguana, and from time to time, private investors who have provided capital to EGTLP by purchasing limited partnership units ("LP Units") at a price of $1,000 per LP Unit.

As Limited Partners of the Partnership on December 31 of each year, the investors are entitled to deduct their share of non-capital losses of the Partnership for the year to a maximum of $1,000 per LP Unit. As a result, 99.99% of non-capital losses are not available to Eguana to offset future taxable income realized by it.

The financial results of EGTLP have been consolidated with the financial results of Eguana since inception as SES has full control over the operations of EGTLP and Eguana has at all times the right to acquire all the LP Units not held by it directly.

In December 2014, EGTLP issued 314 Limited Partnership units at a price of $1,000 per unit resulting in gross proceeds of $314,000. The commissions paid on the issuance were $21,980. As partial compensation 66,598 finders' warrants were issued with a fair market value of $7,245 (Note 12). The warrants have an exercise price of $0.33 and expire one year from issuance. Other costs of $27,280 related to the issue of the partnership units were also incurred bringing the total costs on issuance to $56,505.

The limited partnership units are exchangeable for a total of 951,420 common shares of Eguana after December 31, 2014, at an exchange ratio of $0.33 per share. On February 20, 2015, Eguana exercised its right to convert the units to common shares of Eguana and issued 951,420 shares (Note 9).

Outstanding warrants at December 31, 2014 were as follows:

Range of exercise prices	Warrants	Weighted average price	Weighted average years to expiry
		$	
$0.01–$0.30	4,304,631	0.19	3.09
$0.31–$0.40	8,979,537	0.39	4.80
$0.41–$0.50	1,858,000	0.50	2.87
$0.51–$0.60	2,428,538	0.60	0.94
Balance, December 31, 2014	**17,570,706**	**0.38**	**3.64**

- 241,967 broker warrants were issued in December 2013, in conjunction with the issue of common shares and partnership units (Note 9 and 11). The warrants are exercisable for a period of one year at $0.45. The Black-Scholes option model was used to calculate the fair value of the warrants using a nil dividend yield, a 1.0% interest rate and a volatility of 199.66%. The fair market value at issuance was $65,331.
- 139,160 broker warrants were issued in May and June 2014, in conjunction with the issue of common shares units (Note 9). The warrants are exercisable for a period of 18 months at $0.40. The Black-Scholes option model was used to calculate the fair value of the warrants using a nil dividend yield, a 1.0% interest rate and a volatility of 175.63%. The fair market value at issuance was $46,165.
- 2,309,688 warrants were issued on May 28, 2014 and June 17, 2014, in conjunction with the issue of common share units (Note 9). The warrants are exercisable for a period of 18 months at $0.60. The fair value of the warrants is $Nil based on the residual method where proceeds are first allocated to commons shares according to the quoted price of common shares at the time of issuance and any residual is allocated to warrants.
- 118,850 warrants were issued in June 2014 and July 2014, in conjunction with the settlement of debt (Note 9). The warrants are exercisable for a period of 18 months at $0.60. The Black-Scholes option model was used to calculate the fair value of the warrants using a nil dividend yield, a 1.0% interest rate and a volatility of 172.06%. The fair market value at issuance was $42,228.
- 8,101,946 warrants were issued in December 2014, in conjunction with the issue of common share units (Note 9). The warrants are exercisable for a period of five years at $0.39. The fair value of the warrants is $Nil based on the residual method where proceeds are first allocated to commons shares according to the quoted price of common shares at the time of issuance and any residual is allocated to warrants.
- 775,220 agent warrants were issued in December 2014, in conjunction with the issue of common shares (Note 9). The warrants are exercisable for a period of two years at $0.30. The Black-Scholes option model was used to calculate the fair value of the warrants using a nil dividend yield, a 1.02% interest rate and a volatility of 153.46%. The fair market value at issuance was $192,177.

Stated in Canadian dollars

12. Warrants (continued)

- 271,833 agent warrants were issued in December 2014, in conjunction with the issue of common shares (Note 9). The warrants are exercisable for a period of five years at $0.39. The Black-Scholes option model was used to calculate the fair value of the warrants using a nil dividend yield, a 1.4% interest rate and a volatility of 262.34%. The fair market value at issuance was $88.634.
- 400,000 agent warrants were issued in December 2014, for future corporate advisory. The warrants are exercisable for a period of three years at $0.33. The Black-Scholes option model was used to calculate the fair value of the warrants using a nil dividend yield, a 1.06% interest rate and a volatility of 149.32%. The fair market value at issuance was $108,360.
- 66,598 finders' warrants were issued in December 2014, in conjunction with the issue of partnership units (Note 11). The warrants are exercisable for a period of one year at $0.33. The Black-Scholes option model was used to calculate the fair value of the warrants using a nil dividend yield, a 1.02% interest rate and a volatility of 84.18%. The fair market value at issuance was $7,245.

13. Contributed surplus

The Company has established an option plan (the "Plan") whereby the Company may grant options to purchase common shares to directors, officers, employees, and consultants. Options generally vest over a 3-year period with 1/6 vesting every 6 months. The Company's plan allows for a maximum term on any options to be ten years. The Company, at the discretion of the Board of Directors, may issue options to a maximum of 7,646,303. The plan was approved by the shareholders on October 29, 2014. The minimum price at which the options may be granted is the closing price on the TSX-V on the date of issue.

The following summarizes information about stock options outstanding as at December 31, 2014:

	Number of options to employees	Weighted average price to employees	Number of options to non-employees	Weighted average price to non-employees
		$		$
Balance, October 1, 2013	2,164,289	1.80	511,730	1.50

$0.31–$0.40	1,420,147	0.40	8.47	-	-
$0.41–$0.50	220,000	0.48	4.20	-	-
Balance, September 30, 2014	**3,079,519**	**0.36**	**6.41**	**1,372,705**	**0.30**

The total share-based compensation calculated for three month period ended December 31, 2014, was $10,117 (2013 – $67,350).

On October 29, 2014, the Company issued a total of 300,000 new incentive stock options to a consultant exercisable at a price of $0.38 with an expiry date of October 29, 2024. The stock options are only exercisable following one consecutive quarters of positive earnings before interest, depreciation and taxes, or if the Company is acquired within the next 24 months. The fair value of the options was determined to be $103,080. Management has estimated that as at December 31, 2014, no options are exercisable as the performance indicator has not being achieved and there is uncertainty as to when it will be achieved, resulting in no stock based compensation being recognized.

The fair values of Eguana stock options granted have been estimated on their respective grant dates using the Black-Scholes valuation model and the following assumptions:

	December 31, 2014	September 30, 2014
Risk free interest rate	**1.16%**	1.15%
Expected volatility (1)	**191.34%**	183.71%
Dividend Yield	**-**	-
Expected life (years)	**3**	2
Weighted average fair value	**$ 0.34**	$ 0.35

(1) Expected volatility is estimated by considering historic average share price volatility over 3 years

14. Capital management

The Company's objectives when managing capital is to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders. The Company sets the amount of capital in proportion to risk. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. The Company's objective is met by obtaining adequate equity funding to provide for the possibility that cash flows from operations will not be sufficient to meet future cash flow requirements. The Board of Directors does not establish quantitative return on capital criteria for management; but rather promotes year over year sustainable profitable growth.

Stated in Canadian dollars

14. Capital management (continued)

The Company defines capital as the aggregate of total shareholders' equity (deficiency) and bank debt less cash as follows:

	2014	2013
	$	$
Total shareholders' equity (deficiency)	**884,200**	(6,622,959)
Cash	**(2,401,813)**	(55,960)
Bank debt	**-**	955,104
Total capital	**(1,517,613)**	(5,723,815)

There have been no changes to the Company's objectives in managing capital or in the management of capital since December 31, 2014. The Company presently has negative total capital and is currently working toward reversing this. (Note 3).

15. Financial instruments and financial risk management

Credit risk

The Company has significant credit risk exposure to a single counterparty at December 31, 2014. Approximately 65% (2013 – 33%) of the total accounts receivable is due from one customer. The credit risk on cash is considered to be limited because the counterparties are financial institutions with high credit ratings assigned by international credit rating agencies.

The following table illustrates the Company's receivables and advances:

	December 31, 2014	September 30, 2014
	$	$
Trade	**1,196,268**	1,111,367
Taxation authorities	**614,471**	492,328
Employee advances and other	**70,849**	140,740
	1,881,588	1,744,435
Less: allowance for doubtful accounts	**(51,702)**	(51,702)
	1,829,886	1,692,733

The Company assesses quarterly if there should be any impairment of the financial assets of the Company. During three month period ended December 31, 2014, there was $nil respectively (2013 – $nil) of bad debts expensed.

The maximum exposure to credit risk is represented by the carrying amount on the condensed interim consolidated statement of financial position. There are $51,702 (September 30, 2014 - $51,702) of financial assets that the Company considers past due, and the majority of the remainder of the $465,681 is due from a significant supplier. The amount owed by the Company to this supplier is significantly greater than the outstanding amount due from the supplier.

Stated in Canadian dollars

15. Financial instruments and financial risk management (continued)

Credit risk

The following is a schedule of trade receivables:

	December 31, 2014	September 30, 2014
	$	$
Neither impaired or past due	**468,964**	3,005
Past due in the following periods		
31 - 60 days	**237,963**	99,368
61 - 90 days	**23,660**	60,037
over 90 days	**465,681**	81,668
	1,196,268	244,078

Liquidity risk

The Company's operating cash requirements, including amounts projected to complete the Company's existing capital expenditure program, are continuously monitored and adjusted as input variables change. These variables include but are not limited to available bank lines and government assistance. As these variables change, liquidity risks may necessitate the need for the Company to conduct equity issues or obtain project debt financing. There is no assurance that adequate funds from equity or debt markets will be available to the Company in a timely manner. The company also mitigates liquidity risk by maintaining an insurance program to minimize exposure to insurable losses.

The following are the contractual maturities of financial liabilities at December 31, 2014:

Financial liabilities	< 1 Year	1-3 Years	Thereafter	Total
Accounts payable and accrued liabilities	2,640,246	-	-	2,640,246
Bank loan	-	-	-	-
Energy Northwest obligation	52,331	89,735	-	142,066
Government grant obligation	214,793	35,147	-	249,940
Debentures	514,667	1,993,667	60,000	2,568,334
Total	3,422,037	2,118,549	60,000	5,600,586

15. Financial instruments and financial risk management (continued)

Foreign currency risk

The Company's exposure to currency risk on financial instruments based on carrying amount in Canadian currency was as follows for the three month period ended December 31, 2014:

	Euros	US Dollars	Total
	$	$	$
Cash	36,201	733,215	769,416
Accounts receivable and advances	996,794	203,215	1,200,009
Deposits	186,066	154,979	341,045
Accounts payable and accrued liabilities	(1,310,294)	(270,048)	(1,580,342)
Energy Northwest obligation	-	(138,066)	(138,066)
	(91,233)	**683,295**	**592,062**

Assuming all other variables remain constant, a $0.05 change in the Canadian/US exchange rate would decrease the Company's net loss by approximately $126,422 (2013 - $18,328) and increase the total comprehensive loss by $5,937 for the period ended December 31, 2014. Assuming all other variables remain constant, a $0.05 change in the Canadian/Euro exchange rate would increase the Compa7,717 for the period ended December 31, 2014. An opposite change in the Canadian/ US exchange rate and the Canadian/Euro exchange rate will result in an opposite impact on net loss. The Company had no forward exchange rate contracts in place as at or during the period ended December 31, 2014.

Interest rate risk

Interest rate risk refers to the risk that cash flows associated with the instrument will fluctuate due to changes in market interest rates. The Company currently does not use interest rate hedges, fixed interest rate contracts or variable rate debt to manage the Company's exposure to interest rate fluctuations.

Fair value

The carrying value and fair value of financial instruments at December 31, 2014, is disclosed below by financial instrument category:

Financial instrument	**Carrying value**	**Fair value**
	$	**$**
Accounts receivable and advances	1,692,733	1,692,733
Accounts payable and accrued liabilities	2,143,965	2,143,965
Bank debt	-	-

The Company categorizes its financial instruments carried at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. The Company valued cash using Level 1 input and the embedded derivatives on the Company's debentures (Note 8), and Energy Northwest obligation (Note 6) were measured at a fair value using level 3 inputs.

Stated in Canadian dollars

16. Related party transactions

Other than as disclosed elsewhere in the unaudited condensed interim unaudited condensed interim consolidated financial statements, the Company had the following related party transaction:

	2014		2013

19. Supplemental information

The changes in non-cash working capital for the three month period ended December 31, 2014 and 2013 is as follows:

	2014	2013
	$	$
Operating activities		
Decrease (increase) in assets		
Accounts receivable and advances	**(137,497)**	(108,133)
Prepaid expense and deposits	**(104,072)**	(30,646)
Inventory	**(34,740)**	135,280
	(276,309)	(3,499)
Increase (decrease) in liabilities		
Accounts payable and accrued liabilities	**363,148**	(354,504)
	86,839	(358,003)

20. Commitments

(a) At December 31, 2014, Eguana had commitments for premises as follows:

	$
Less than one year	**83,000**
Between one and five years	**158,000**
More than five years	**-**
	241,000

The Company has the right to renew is Calgary premises for a period of five years at the end of the term.

(b) Consulting services of $42,000 US were provided in fiscal 1998 to a subsidiary of the Company. Repayment is contingent upon SEL achieving sales or capital funding of $2,000,000 US. Interest at an annual rate of 20% per year commences from the date upon which the liability first accrues. It is the opinion of management that SEL will not meet the performance targets based on its history and the future plans for the subsidiary and therefore it is unlikely that any amount will be payable under the agreement.

20. Commitments (continued)

(c) There is a legal action for which the ultimate result cannot be ascertained at this time. Management does not expect the outcome of these proceedings to have a material effect on the financial position or results of operations.

(d) The Company is party to an employment agreement with a director of the Company, under which payment of a portion of the director's compensation is contingent upon the Company realizing positive earnings for any one fiscal quarter before interest, taxes, depreciation and amortization, a change of control of the Company, liquidation or receivership of the Company or termination of the employment relationship. At December 31, 2014, the total contingent amount was approximately $600,000 (2013 - $450,000) because the Company has not achieved the criteria for payment no amount has been accrued for this.

21. Segmented information

Major customers

The Company had one customer where product sales were greater than 10% in the period ended December 31, 2014. The customer had attributed sales of approximately $1,510,726 for the period ended December 31, 2014 (2013 - 406,701).

22. Subsequent events

On February 20, 2015, Eguana exercised its right to convert EGT Markets Limited Partnership units to common shares of Eguana and issued 951,420 common shares (Note 11).
