Who Should Attend:

Installers and Electricians interested in learning about cost competitive, fully integrated AC Coupled energy storage solutions. After completing this course, you will be authorized to purchase and install the *Evolve* by Eguana.

Training Overview:

A product introduction followed by a technical deep dive including the installation of the *Evolve* hardware including both the PCS (power control system) and battery modules, system commissioning, comprehensive overview of the user interface and installation "best" practices.

Training sessions typically last 3 hours and are best suited for installers looking to offer their customers energy savings from solar and peak shifting with the security of backup power. Learn about the cost competitive, scalable and immediately available Eguana *Evolve* and *Elevate* AC Coupled, LG Chem based, battery storage systems by Eguana.

***Evolve* – Home Energy Storage Systems**

Evolve is a fully-integrated residential energy storage system that includes the company's proprietary power electronics system, LG Chem low-voltage battery modules, and a comprehensive user interface. The system is rated at 5KW AC output with a modular battery design based on a 6.5 kWh battery, which is scalable from 13 to 39kWh in storage capacity. The NEMA 3R wall-mounted package is suitable for indoor and outdoor installations. The package is backed by a 10-year standard warranty.

The *Evolve* supports grid-connected solar self-consumption, time of use, and backup power. It is now available in the United States and in Caribbean markets, with certification standards matching UL1741, California's Rule 21, and Hawaii's Rule 14H.

About CED Greentech

CED Greentech is a division of Consolidated Electrical Distributors Inc., one of the largest electrical product wholesale distributors in the country. As a full-service wholesale distributor of Solar, Electrical and Renewable energy products, they are committed to providing superior service and support. CED Greentech have an extensive on-site inventory featuring products from the solar and electrical industry's top manufacturers.

About Eguana Technologies Inc.

Based in Calgary, Alberta Canada, Eguana Technologies (EGT: TSX.V) (OTCQB: EGTYF) designs and manufactures high performance residential and commercial energy storage systems. Eguana has two decades of experience delivering grid edge power electronics for fuel cell, photovoltaic and battery applications, and delivers proven, durable, high quality solutions from its high capacity manufacturing facilities in Europe and North America.

With thousands of its proprietary energy storage inverters deployed in the European and North American markets, Eguana is one of the leading suppliers of power controls for solar self-consumption, grid services and demand charge applications at the grid edge.
